MAYANG GITA OKTAFIA

TARGET ROLE: AI/ML ENGINEER & AI AUTOMATION SPECIALIST

Jakarta, Indonesia (Remote-Ready) | +62 877-7311-5684 | maygitvia@gmail.com | linkedin.com/in/mayang-gita-oktafia | portfolio-lyart-one-91.vercel.app

PROFESSIONAL SUMMARY

Telecommunication Engineering graduate (S.T.) from Telkom University (GPA: 3.12/4.00) specializing in Applied Machine Learning, Deep Learning, and AI Workflow Automation. Proven track record in training and deploying computer vision models (MobileNetV2, BiLSTM) and architecting autonomous, zero-touch document pipelines leveraging n8n, Google Gemini API, and cloud services. Backed by solid field engineering experience at PT Kereta Api Indonesia (Persero) managing mission-critical fiber-optic backbone networks and VoIP infrastructures, alongside rigorous financial and legislative governance as General Treasurer (Inti Parlemen) of DPA HMTT. Certified across 170+ intensive hours in Machine Learning, Python, and Prompt Engineering by Dicoding and Google Developers Authorized Partners. Immediately available for full-time on-site, hybrid, or remote engineering and automation roles.

EDUCATION

Telkom University - Bandung, Indonesia 2022 - 2026

Bachelor of Engineering (S.T.) in Telecommunication Engineering | GPA: 3.12/4.00

Academic requirements fully completed (formal commencement ceremony scheduled November 2026). *Relevant Coursework:* Deep Learning & Computer Vision, Artificial Intelligence, Optical Fiber Communications, Voice over IP (VoIP), Data Communication & Computer Networks, Relational Databases & SQL, Signals & Systems.

SELECTED TECHNICAL & AI PROJECTS

SCOVIS – Deep Learning Handwritten Essay Assessment Platform 2026

AI & Deep Learning Developer | Python, MobileNetV2, BiLSTM, Computer Vision, Image Preprocessing Pipelines

- Architected and trained an end-to-end hybrid deep learning architecture combining MobileNetV2 for visual feature extraction and Bidirectional LSTM (BiLSTM) for sequential context modeling to automate subjective handwritten essay grading.
- Implemented robust multi-stage image preprocessing routines including grayscale normalization, adaptive noise thresholding, and morphological filtering to prepare heterogeneous handwritten answer sheets for model consumption.
- Programmed dedicated inference scripts generating calibrated scoring predictions, reducing manual grading overhead and accelerating assessment turnaround times.

AI-Powered Document Translation Automation Platform 2026

Lead Workflow Automation Developer | n8n, Google Gemini API, Google Drive API, Google Docs, JSON

- Designed and deployed an autonomous zero-touch document processing workflow using the n8n automation engine to translate English technical PDF documents into structured Indonesian formats.
- Integrated Google Drive event triggers with the Google Gemini API, designing context-aware prompt engineering patterns to ensure high linguistic fidelity, domain-specific terminology preservation, and correct tone adaptation.
- Automated dynamic file parsing, text extraction, and export routines to Google Docs via REST API nodes, successfully validating end-to-end reliability across multiple multi-page documents without manual intervention.

PROFESSIONAL EXPERIENCE

PT Kereta Api Indonesia (Persero) - Cirebon, West Java, Indonesia Jun 2025 - Aug 2025

Telecommunications Engineering Intern (Kerja Praktik)

- Maintained railway telecommunications backbone infrastructure and high-availability optical fiber transmission networks connecting regional station signaling, trackside sensors, and central control hubs.
- Performed precision fiber-optic core preparation, connectorization, and fusion splicing; conducted signal attenuation diagnostic tests using Optical Time-Domain Reflectometers (OTDR) and Visual Fault Locators (VFL) to ensure minimal optical loss.
- Configured and deployed Voice over IP (VoIP) telephony servers using Elastix IP-PBX in Oracle VirtualBox virtualized environments; provisioned SIP extensions and validated end-to-end call routing using Mizudroid softphone clients.
- Authored technical maintenance logs and link budget analyses to uphold strict railway communications safety standards and operational uptime.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Student Representative Council (DPA HMTT) - Telkom University 2023 - 2026

General Treasurer, Parliamentary Board (2025 - 2026) | Legislative Staff, Commission 1 (2024 - 2025) | Intern Staff, Commission 3 (2023)

- Managed and governed parliamentary operational budgets as General Treasurer (Inti Parlemen), enforcing transparent financial tracking, cash-flow disbursements, and formal multi-commission budget reconciliation across all legislative branches.
- Headed legal reviews and constitutional oversight as Commission 1 Staff, driving the revision of organizational bylaws (AD/ART), educating council delegates on parliamentary jurisprudence, and serving as Master of Ceremonies (MC) for Legislative Camp.
- Supervised executive work programs under Commission 3, preparing comprehensive meeting minutes and serving as Presidium III during high-level Accountability Hearings (Sidang LPJ).

CERTIFICATIONS AND INTENSIVE TRAINING

- **Belajar Machine Learning untuk Pemula:** Dicoding Indonesia & Google Developers Partner (90 hours; Supervised & Unsupervised Learning, KNN, Decision Trees, K-Means clustering, feature engineering, and hyperparameter tuning - Sep 2026 | Credential: `GRX50QORRZ0M`).
- **Memulai Pemrograman dengan Python:** Dicoding Indonesia & Google Developers Partner (60 hours; Python fundamentals, OOP, PEP8 style standards, data structures, and unit testing - Sep 2026 | Credential: `QLZ9N47M9Z5D`).
- **Prompt Engineering untuk Software Developer:** Dicoding Indonesia & Google Developers Partner (16 hours; Generative AI prompting patterns, LLM application development, context constraints, and productivity workflows - Sep 2026 | Credential: `NVP7W7QR4ZR0`).
- **Belajar Dasar AI:** Dicoding Indonesia & Google Cloud Partner (10 hours; Artificial Intelligence principles, data readiness for AI, machine learning fundamentals, and deep learning architectures - Sep 2026 | Credential: `1RXYD1L83XVM`).

TECHNICAL SKILLS

Artificial Intelligence & ML: Supervised Learning (KNN, Decision Trees, Linear Regression), Unsupervised Learning (K-Means Clustering), Feature Engineering, Hyperparameter Optimization, Deep Learning (MobileNetV2, BiLSTM, CNNs), Computer Vision, Image Preprocessing & Inference Pipelines

Generative AI & Automation: Google Gemini API, Prompt Engineering (Structured Outputs, Few-Shot Prompting, Role-Based Framing), n8n Workflow Automation, Google Workspace API Integration (Drive, Docs)

Programming & Scripting: Python (OOP, Unit Testing, PEP8), SQL basics, JSON, Bash / CLI

Telecommunications & Networking: Optical Fiber Splicing, OTDR (Optical Time-Domain Reflectometer), Visual Fault Locator (VFL), Optical Power Measurement, VoIP (Elastix IP-PBX, SIP Protocols, Mizudroid), Oracle VirtualBox, IP Networking Fundamentals

Developer Tools & Environments: Visual Studio Code, Jupyter Notebook, Google Colab, Git, GitHub, Vercel

PROFESSIONAL & COLLABORATION SKILLS

Core Competencies: Financial & Budgetary Governance, Cross-Functional Team Leadership, Technical Documentation & Reporting, Analytical Problem Solving, Asynchronous Communication, Process Automation

LANGUAGES

Indonesian: Native proficiency

English: Professional working proficiency | Telkom University EPrT Score: **457** (Certificate No: 22196/SPI3-F/BHS/2026; Valid through Jun 2028); technical documentation, AI research literature, and API integrations authored in English
